## *Message from desk of Organising Secretary*

The years of pandemic have been challenging with some of us experiencing losses – personal and otherwise. Time has stood still and as we wait with bated breath for the waves to ebb, let us renew our personal and professional bonds with the help of technology. The limitations imposed by the conditions have forced us to host this conference virtually - a first for our association. The decision was taken by the Executive Committee and we would like to thank them for reposing their faith in us.

The 34th Annual conference of Association of Neuroscientists of Eastern India – ANEICON- will be held virtually from 26-28 November 2021 and we extend our warm invitation for the same.

ANEICON 2020-21 promises to be an enthralling academic experience with experts in the field of Neurology, Neurosurgery and allied specialities sharing their invaluable experiences. Delegates will have an opportunity to present their papers virtually as poster, platform and award categories. To encourage budding neuroscientists and research, the best papers will be judged and awarded in each category.

Please mark your dates and give us a chance to be your virtual host. We anticipate energetic participation from all the members leading to fruitful interaction and cultivation of scientific knowledge in the field of neurosciences.
